48Gbps 8K@60Hz 4K@120Hz High-Speed HDMI 2.1 Cable:
Enjoy amazing home theater and gaming with our 8K 8K Fiber Optic HDMI 2.1 Cable (30ft/50ft). It supports super-fast 48Gbps speeds, ultra-clear 8K@60Hz, and smooth 4K@120Hz, delivering incredible detail and performance.

Perfect for Gamers:
Take your gaming to the next level with features like eARC for crystal-clear audio, VRR to stop screen tearing, and an extra-long 50ft cable for hassle-free connections. It’s the ultimate HDMI cable for the latest tech and beyond.

Works with Everything:
Easily connect to laptops, Blu-ray players, HDTVs, monitors, projectors, and top gaming consoles like Xbox Series X and Nvidia RTX 3080/3090. It's designed to work perfectly with all your devices and future setups.

Incredible Sound Quality:
Experience breathtaking sound with support for DTS Master, DTS:X, Dolby Atmos, and eARC. Your movies and games will sound as amazing as they look.

Built to Last:
Made with advanced fiber optic technology, this slim and lightweight HDMI cable

is faster, more durable, and perfect for modern home setups. It's a long-term solution for anyone who wants top-notch quality.
