1. Product Overview

MOG12B is the black version of the Mowsil GL120 Wired USB Mouse. It is designed for reliable everyday office, education, home, and retail computer use with USB-A plug-and-play connectivity.

Recommended for

- Desktop and laptop users who need a wired USB mouse.
- Office, school, POS counter, service desk, and home workstations.
- Retail bundle with wired keyboards, desktops, and laptop accessories.

Positioning: A practical USB wired mouse with optical tracking, silent click feel, comfort shape, and durable 3 million click life.

2. Key Features

1200 DPI Optical Sensor Accurate tracking for everyday use on common desk and workstation surfaces.	**USB-A Wired Interface** Reliable wired connection without battery charging or wireless pairing.	**Plug & Play** Connect to a USB-A port and start using the mouse without additional drivers.
Silent Click Quiet click feel suitable for offices, shared desks, schools, and home workspaces.	**Smooth Scroll Wheel** Scroll documents, spreadsheets, webpages, and menus with better control.	**Comfort Design** Rounded shape supports daily use and fits common hand positions.
3 Million Click Life Durable button design rated up to 3 million clicks as shown on the package artwork.	**1.5m Cable** Practical cable length for desktop tower, monitor USB hub, laptop, or docking setup.	**OS Compatibility** Compatible with Windows, Mac OS, and Linux as shown on the package artwork.

Feature details are taken from the supplied MOG12B retail packaging artwork.

3. Technical Specification

Brand	MOWSIL
Model	MOG12B
Product Name	GL120 Wired USB Mouse - Black
Product Type	Wired optical mouse
Interface	USB-A
Resolution	1200 DPI
Sensor Type	Optical
Click Type	Silent Click
Scroll Wheel	Smooth scroll wheel
Cable Length	1.5 meter
Button Durability	Up to 3 million clicks
Color	Black
Compatibility	Windows, Mac OS, and Linux
Package Size	85 x 40 x 125 mm
Packaging Finish Notes	Embossing and Spot UV areas are indicated on the packaging artwork.
Warranty	2 Years

Actual compatibility and behavior may vary depending on operating system version, USB port condition, and device settings.

4. Sensor & Tracking Performance

Tracking Type	Optical tracking sensor for standard desktop use.
Resolution	1200 DPI fixed resolution for everyday pointer control.
Recommended Surfaces	Mouse pad, office desk, laminated table, and common work surfaces.
Best Use	Office work, browsing, document editing, POS counters, school labs, and general computer use.
Surface Note	For best accuracy, avoid transparent glass, glossy mirror surfaces, uneven cloth, or very reflective surfaces.

The GL120 is positioned as a reliable wired mouse for standard productivity rather than a gaming mouse with adjustable DPI or programmable buttons.

5. Comfort, Click & Scroll Details

Comfort Shape Rounded body supports natural palm placement for daily use.	**Silent Click Feel** Lower-noise click experience for shared and office environments.
Smooth Scrolling Scroll wheel supports daily page, spreadsheet, and document navigation.	**Stable Wired Use** No charging, batteries, pairing, or wireless dropouts.
Black Finish Professional black color suitable for office desks and retail bundles.	**Durable Click Life** Buttons rated up to 3 million clicks for everyday reliability.

Primary Buttons	Left and right click buttons
Scroll Wheel	Central scroll wheel with click function
Noise Profile	Silent click type as shown on packaging
Cable Handling	1.5m cable provides practical desk reach while keeping setup simple

6. USB Connectivity & Compatibility

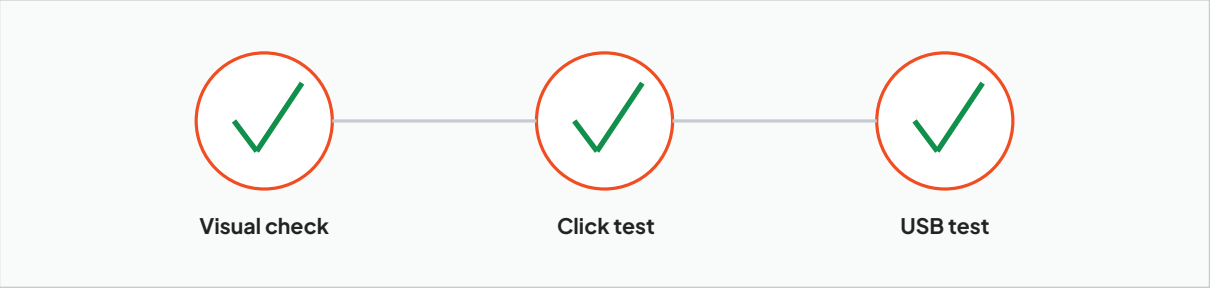

Connection Method	Connect the USB-A plug to a compatible USB port.
Driver Requirement	No additional driver required for standard mouse use on supported systems.
Windows Support	Compatible with Windows as shown on the packaging artwork.
Mac OS Support	Compatible with Mac OS as shown on the packaging artwork.
Linux Support	Compatible with Linux as shown on the packaging artwork.
Power Source	Powered through USB connection. No battery is required.
Ideal Pairing	Can be bundled with MOWSIL wired keyboards, desktop systems, workstations, and office accessories.

Some shortcut or scroll behavior may depend on operating system settings and application support.

7. Installation & Usage Instructions

1	Remove the mouse from the retail packaging and unwrap the cable.
2	Connect the USB-A plug to an available USB-A port on the computer, monitor hub, docking station, or supported USB extension.
3	Wait for the operating system to recognize the mouse automatically.
4	Move the mouse to confirm pointer response and use the scroll wheel to confirm scrolling.
5	Adjust pointer speed, scrolling speed, or primary button settings from the operating system mouse settings if required.
6	For best tracking, place the mouse on a mouse pad or non-glossy desk surface.

8. Durability & Quality Checklist

Visual Check	Mouse body has no cracks, dents, loose parts, or major surface defects.
Button Check	Left click, right click, and scroll-wheel click respond normally.
Scroll Check	Scroll wheel moves smoothly without abnormal noise or stuck movement.
Cable Check	1.5m cable and USB-A connector show no cuts, pin damage, or exposed wire.
Tracking Check	Pointer movement is smooth on a standard mouse pad or desk surface.
USB Recognition	Computer recognizes the mouse automatically through USB-A port.
Packaging Check	Correct model MOG12B, black color, GL120 product marking, barcode area, and package condition.

Durability note: The packaging states durable buttons rated up to 3 million clicks, making the mouse suitable for routine office and home usage.

9. FAQ

Is MOG12B wired or wireless?

It is a wired USB mouse with a USB-A interface.

Does it need a driver?

No. It is plug and play for standard mouse functions on compatible operating systems.

What is the DPI?

The mouse has 1200 DPI optical tracking.

Is it suitable for office use?

Yes. It is designed for everyday office, school, home, service desk, and retail workstation use.

Does it support silent click?

Yes. The packaging lists Silent Click as a product feature/icon.

What is the cable length?

The cable length is 1.5 meter.

What systems are compatible?

The packaging lists compatibility with Windows, Mac OS, and Linux.

Does it require batteries?

No. It is powered through the USB-A wired connection.

Can it be used on glass?

Optical mice usually perform best on mouse pads or non-reflective surfaces. Avoid transparent or glossy glass for best accuracy.

What is the click life?

The packaging states durable buttons rated up to 3 million clicks.

10. Warranty & Support

Warranty Period	2 Years as shown on the retail packaging artwork.
Support Website	www.mowsil.com
Support Email	support@mowsil.com
Warranty Scope	Manufacturing defects under normal use, subject to seller/distributor warranty policy.
Not Covered	Physical damage, cable cuts, liquid damage, misuse, excessive force, unauthorized repair, and damage from improper storage.
Recommended Proof	Purchase invoice, product box/model code, and clear photo/video of the issue if support is required.

Final sales note: Highlight USB-A plug-and-play connection, 1200 DPI optical tracking, silent click, 1.5m cable, and Windows/Mac/Linux compatibility in customer communication.
