  Hybrid Fibre cable and Copper wire
  - 24K Gold plated Connector

conventional copper HDMI cables, the Fiber Optic Hybrid HDMI cables have an advanced chipset that enables the cables to maintain full 4K@60Hz HDMI signal integrity during long distance runs, making them the perfect solution for long distance HDMI connectivity. These Hybrid HDMI cables also feature a detachable HDMI connector that converts into a small Micro HDMI connector allowing it to easily fit through conduits or wire management systems. These HDMI cables also feature "S-Locked" HDMI connectors and are compatible with either HDMI or Micro HDMI Devices.

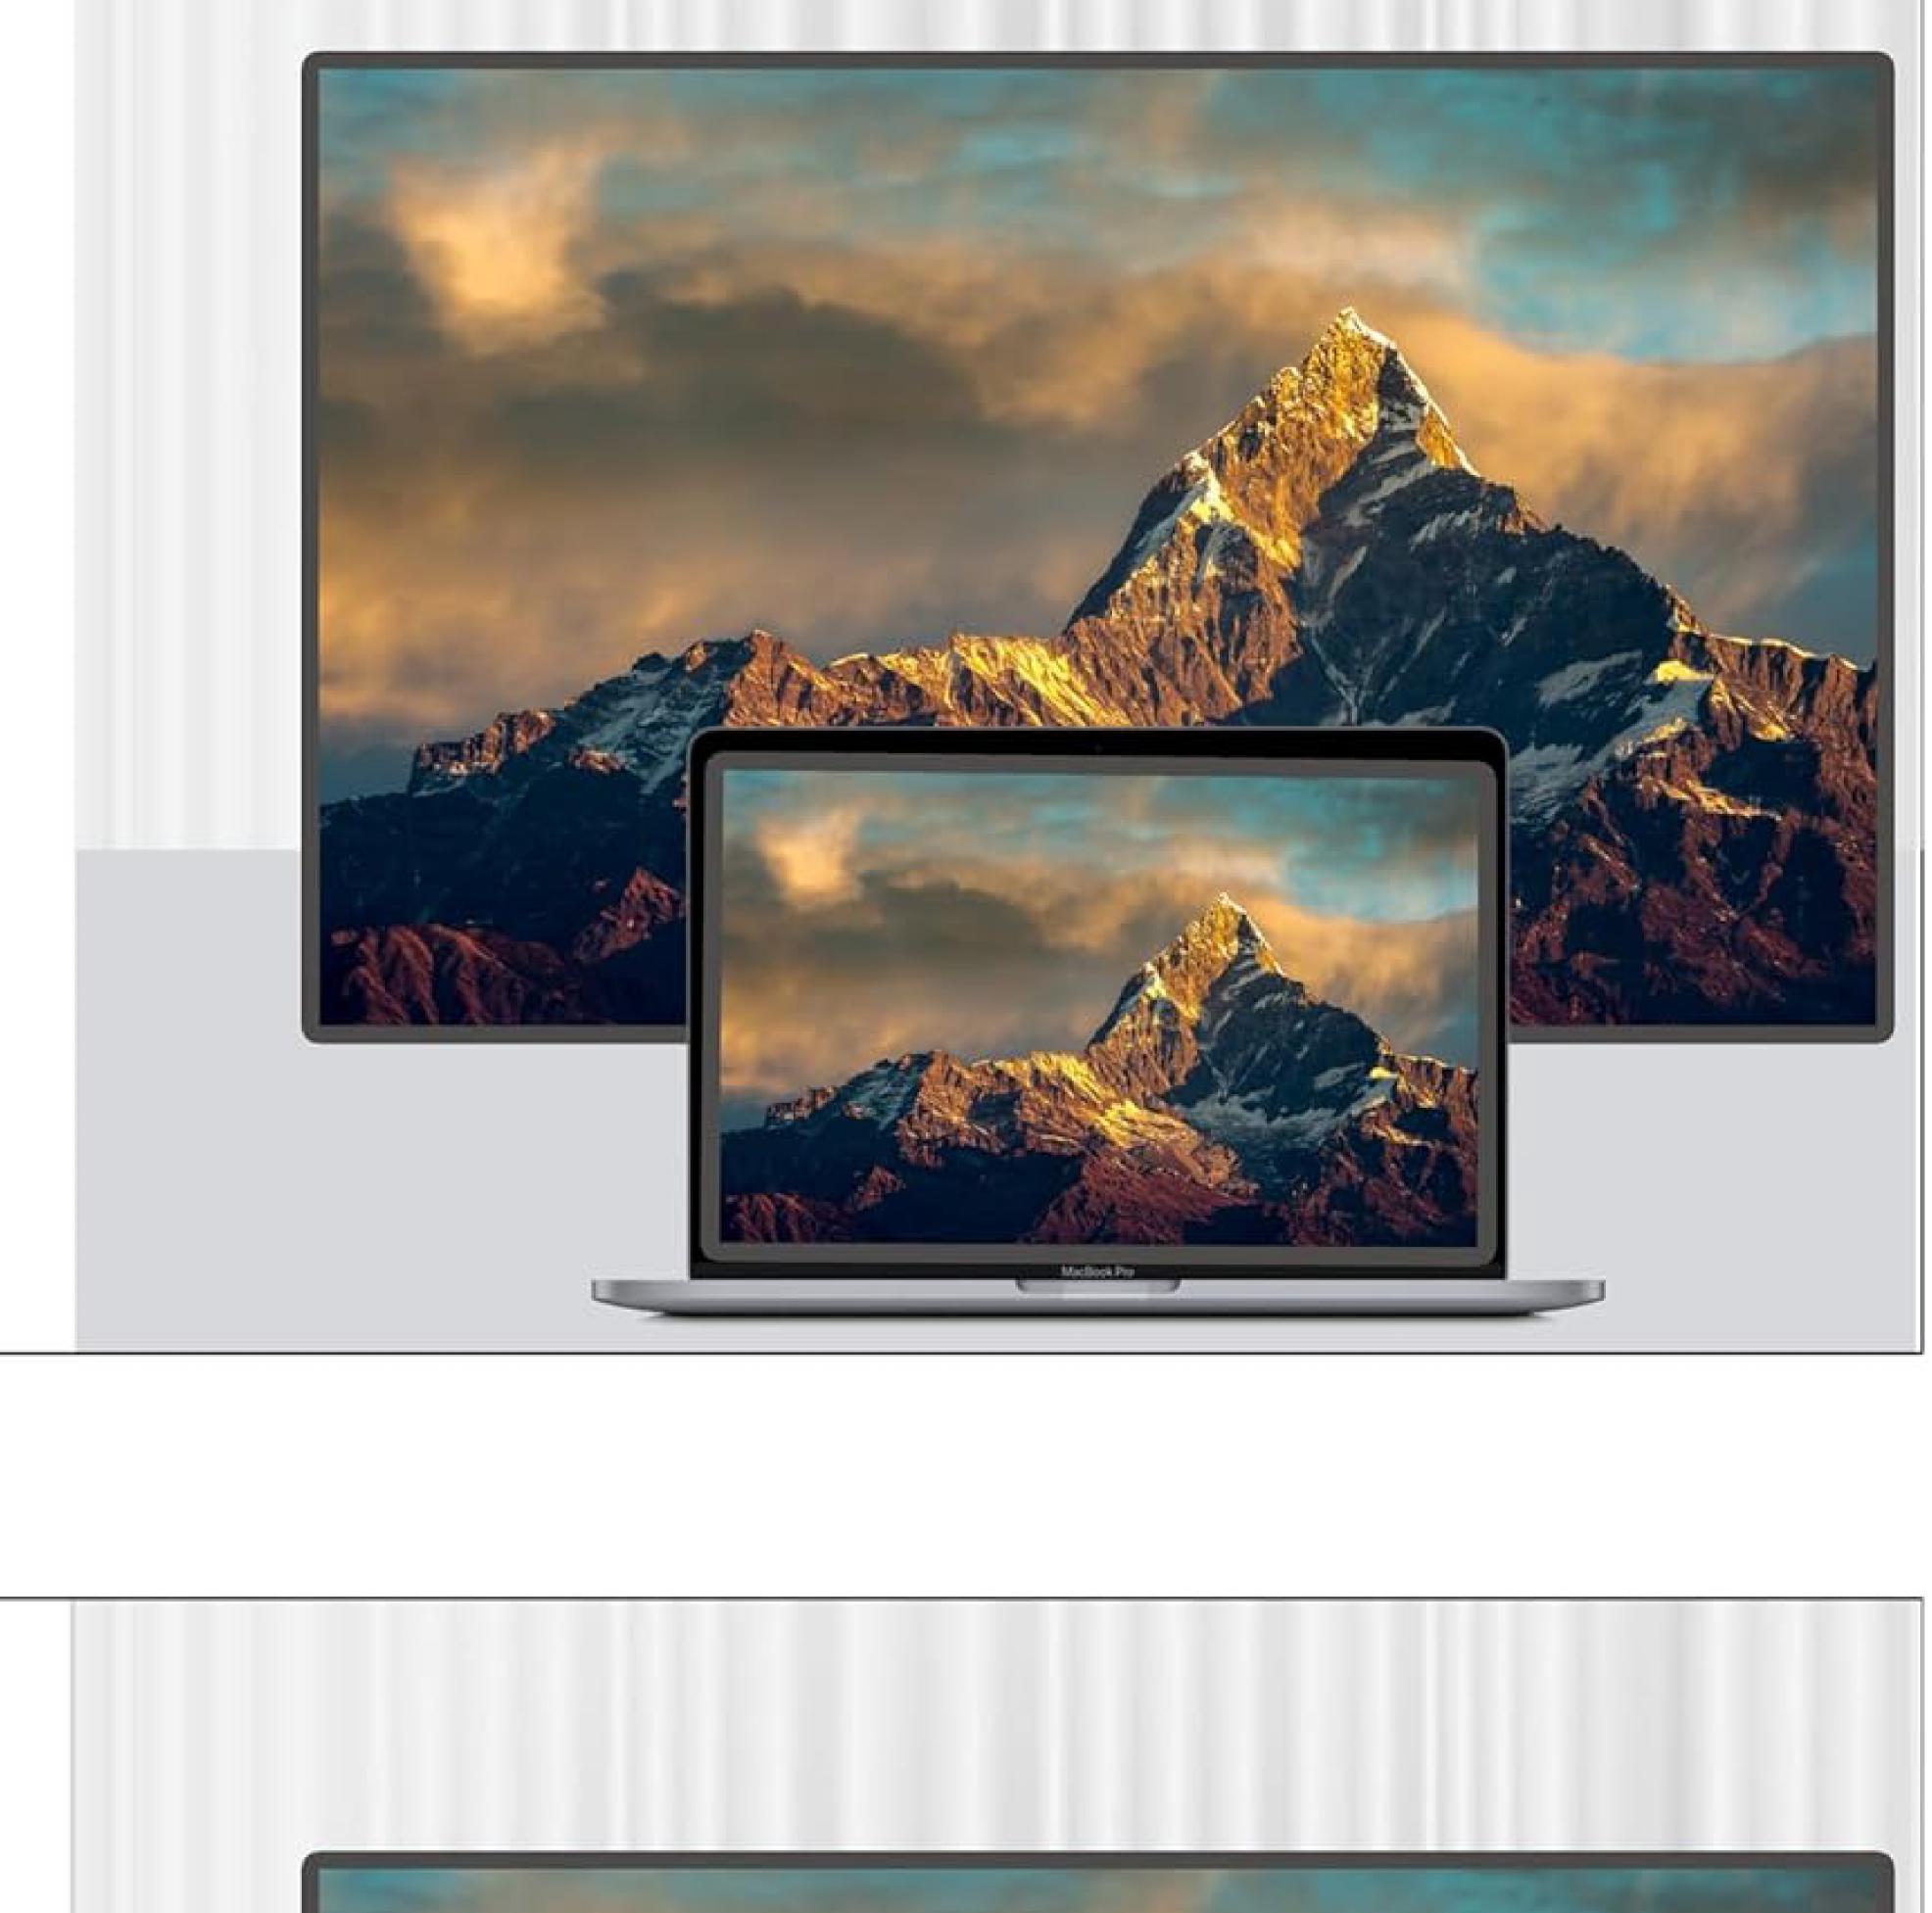

Active Optical (AOC) High speed Fiber HDMI cable with Ethernet The Fiber Optical

Hybrid HDMI cables are designed for commercial, studio, and residential use. Unlike
