

## USB to LAN with 3 PORT HUB Type-C+USB

SKU: MOLN3H

### SPECIFICATIONS

- Input: USB 3.0 + Type-C
- Output : 3 x USB 3.0 VGA
- Cable Length : 8 CM
- Aluminum Alloy

The 4 in 1 USB Ethernet hub is designed for connecting notebooks with only USB port or only USB C port. A simple and practical expansion of three USB 3.0 ports and one RJ45 Gigabit Ethernet connection to expand your single USB port or USB C port to 3 USB ports with an Ethernet port efficiently and get your keyboard, mouse, printer, and webcam to work together.

#### Plug and Play

No need to install any drivers, just plug and play, and makes it possible for computers without an Ethernet port to connect to an Ethernet cable. Supports IPv4/IPv6 protocols, dual channel transfer mode, auto transfer and data stream reversing regulation.

#### Compatible Devices

The usb hub Ethernet is compatible with Tablets, Laptops, Desktops, Cellphone, TV box, etc.

#### Convert and Connect

Full speed USB 3.0 can transfer data at speeds of up to 5Gbps, which is 10 times that of USB 2.0. Extra 3 USB 3.0 port allows you to connect your mouse, keyboard, hard drive, flash drive, card reader, and more. Speed up to 5Gbps. Down compatible with USB 2.0 devices.

The hub's built-in Gigabit Ethernet port provides an Ethernet data-transfer speed of up to 1000 Mbps network performance and backwards compatibility to 100/10Mbps. Faster and more stable than ordinary wireless networks, improving the Internet speed effectively.

## Wide Compatibility

### USB A / USB C

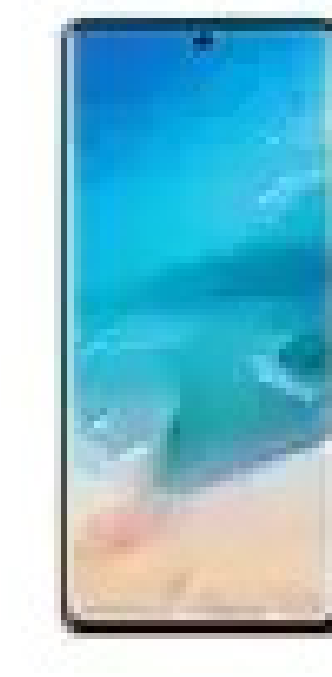

Laptop

Desktop

TV box

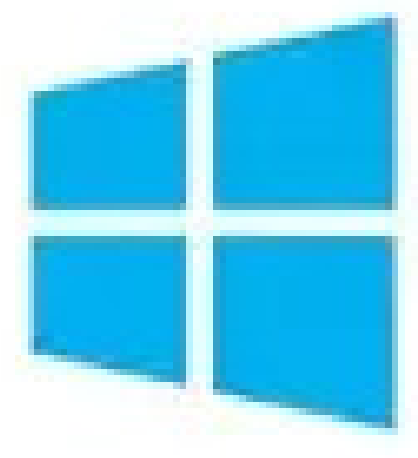

Smartphone

Pad

### Systems

Windows

Mac OS

LINUX

Chrome OS

IPad OS

Android
