Displayport to displayport cable can easily connect a DisplayPort DP equipped computer to an HDTV, monitor or projector with DisplayPort for high definition audio and video. It is suitable for laptops.

High resolution and refresh rate:

Fixed and secure connection, plug in and use immediately. The high quality braided nylon cladding with 24K Gold plated Connector.

High compatibility:

connect a DisplayPort equipped desktop / laptop directly to an HDTV, monitor, display and gaming graphics card with a DisplayPort for crystal clear audio and high-resolution video. This DisplayPort cable 1.2 is backwards compatible with other versions. DP to DP cable Transmits high-definition video from your computer to a monitor for video streaming; Connect and configure your monitor for an Extended Desktop or Mirrored Displays.

Strong anti-interference capability:

the DP cable with tin-plated copper and triple layer shielding is enough to transfer high-quality and stable video and audio signals without worrying about visual and acoustic interference, artefacts and problems with audio/video synchronisation. 24K gold-plated connectors.
