SPECIFICATIONS

- MiniDP Male to DP Male Cable
- Cable Length : 2 Mtr
- Resolution: 4K @ 60/30 Hz
- 32 AWG ,OD 6.0 MM
- 24K Gold plated Connector

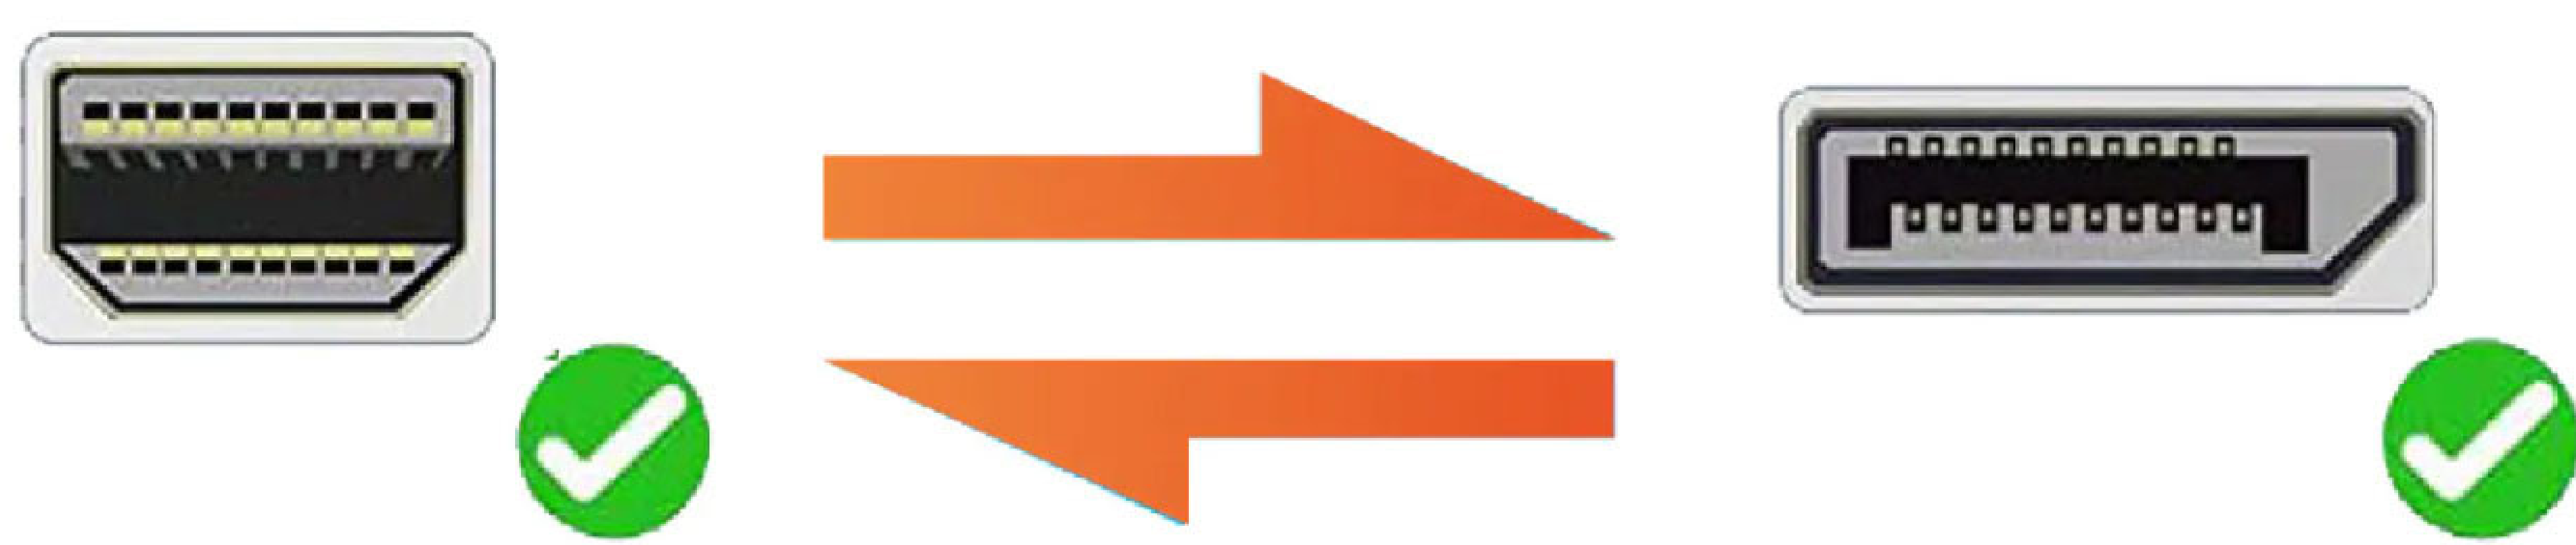

This Mini DisplayPort to DisplayPort Cable allows you to connect laptops with Mini DP/DP ports to external displays/TVs/Projectors featuring a DisplayPort/Mini Display Port input, which works beautifully whether you are planning to play video games or watch sport games on a bigger screen with high refresh rate.

Gamer-friendly refresh-rate (2K@165Hz, 2K@144Hz) and high resolution up to 4K (3840x2160@60Hz) makes it an optimal choice for smoother, tear-free gaming experience.

Ideal for Mini DP/Thunderbolt 2-enabled devices: Apple MacBook Air (BEFORE 2018), Apple MacBook Pro (BEFORE 2016), iMac (BEFORE 2017), Microsoft Surface Pro Lineup, Surface Laptop, and any other laptops with a Mini DisplayPort Output, as well as DisplayPort-equipped desktop/laptop.

Makes your holiday photos and favorite films so much more interesting and enjoyable on the big screen! Extended Mode: Works like a charm for multitasking. [Incredible Durability] Nylon braided cable & aluminum shell, uses 24K gold-plated connectors of a higher standard to ensure great stability(NO data loss) and longer service life.

NOT compatible with Thunderbolt 3 (Type-C). Although the transmission is bi-directional, you may not use MacBook Air/Pro as an external display.
